CRANKED AUTO WHILE IN GEAR; DRAGGED 100 FEET

Because he left his Dodge automobile in gear, spectators say, and then cranked it, Gordon Davey had a thrilling experience and perhaps narrowly missed being injured. Yesterday afternoon he stopped the car in front of the E. Reinhart company store. When he got ready to start again he got in front of the car to crank it.

NO RECEPTION FOR PRISONERS

(Correspondence Associated Press)
WITH AMERICAN FORCES IN GERMANY, July 27.—Public reception and meetings planned by civilians in honor of returning German prisoners of war are not to be allowed in the American occupied area, notice to this effect recently having been sent to the authorities of the local government. The German Red Cross has been collecting funds for several months in preparation for the homecoming of thousands of Germans from France and England.

A recent order by Major General Henry T. Allen, commander of the American forces in Germany, quotes a letter to the Ober-president of the Rhine province, as follows:

"While sympathizing fully with the natural desire of the German people to accord a welcome to the returning prisoners of war, nevertheless, in view of the fact that the military occupation must continue until the treaty of peace is ratified by the allied governments, and particularly in view of the necessity of preventing any semblance of disorder which might compel a resort to disciplinary action, the commanding general directs that you have the returnees, presidents of Citizens and Trier not to the population of their respective districts that the reception of returning prisoners of war must be limited to personal and family receptions, and must not be made the occasion of official receptions, processions or any other public assemblies."

"This will not, of course, be construed to prevent the Red Cross authorities from serving refreshments at railroad stations."

ELK MAY DIE DURING WINTER

The officers of the forest reserve and the biological survey, and of the states of Wyoming and Montana are seriously concerned over the probability of heavy losses of elk this winter. The open ranges upon which the elk herds in the territory tributary to Yellowstone park are dependent during the winter, lie in the heart of the region so seriously affected by the drought this summer. As a result, very little forage has been produced by these areas, and the outlook for the coming winter is a grave one. If the winter is open and mild, the elk may escape with no more than a normal loss, but if the winter is a severe one of long duration and marked by heavy crusts on the snow, a loss of 50 per cent or more of the animals will not be at all improbable.

The stock of hay in the possession of the federal and state authorities in Jackson valley is 25 per cent above normal, but up to this time, many of the elk have wintered upon the pastures and haystacks of the settlers. This year, the pastures are in poor condition, the haystacks scanty, and the settlers confronted with the necessity for utilizing every pound of forage available in order to winter their domestic stock. Under such circumstances a bad winter will result in a very heavy death loss of elk.

CITY SWIMMING POOL

Notice is hereby given that the swimming pool will be opened for children daily from 1 to 5 o'clock during which hours no adults will be admitted. Adults will find the baths available during the morning and from 5 to 10 o'clock in the evening. The management has set aside Thursday from 9 to noon for ladies' day.
